Backslash Documentation

Release 2.29.2.dev1

Rotem Yaari

Aug 06, 2017

Contents

1 Overview **1**
1.1 Changelog 1

2 Indices and tables **3**

CHAPTER 1

Overview

This library is intended to act as the official Python client for the Backslash test reporting service.

Contents:

Changelog

- #36: Added `get_parent` to test objects to retrieve the parent session
- #37: Support reporting fatal exceptions
- #39: Added `webapp_url` and `rest_url` to the official Slash plugin
- : Move to PBR
- #49: Add hook for intercepting keepalive thread exceptions
- #31: Be more resilient to I/O errors when compressing tracebacks
- #23: Enable injecting metadata via environment variables
- : Added Slash plugin option to propagate exceptions (useful for debugging)
